- Proficiency in front-end frameworks such as React, TailwindCSS.
- Proficiency in Redux Toolkit for State Management.
- Proficiency in React Query for RECTful APIs.
- Proficiency in SOCKE.io for real-time Communication.
- Experience in back-end development with Laravel.
- Experience in database management with SQLite.
- Experience in version control systems such as Git.
- Comfortable working in a collaborative team environment and communicating with other stakeholders.
- Experience in responsive design techniques.
- Strong Communication,Self Learning.
- DOM Manipulation.
- Open-Source Contributor.
- Proficiency in Programming Languages such as C++, Java.

PROJECTS

Full-Stack Web Application

- Technologies Used: Laravel (Back-End), React (Front-End), SQLite (Database)
- Description: Developed a full-stack web application with a responsive user interface, managed database operations, and implemented RESTful APIs. This project showcased my ability to handle both front-end and back-end development, ensuring seamless integration and optimal performance.

Delivery Application

- Technologies Used:Laravel and Flutter.
- Designed and optimized database schemas for products, orders, users, and drivers using SQLITE.
- Implemented secure authentication and authorization using Laravel Sanctum for users and drivers.
- Developed RESTful APIs using Laravel for a delivery app, enabling users to buy products and drivers to deliver them.
- Built middleware for role-based access control (RBAC) to restrict access to user, and driver endpoints.
- Collaborated with frontend developers to ensure seamless integration of APIs with the Flutter mobile .

Open-Source Contributions

- Description: Actively contributed to open-source projects, improving my collaboration skills and gaining experience in working with distributed teams.

OBJECTIVE

To obtain a part-time position as a web developer to develop and maintain software. Utilizing two years of experience in website development, strong creativity, and analytical skills, along with expertise in Laravel,React and SQLite.
